

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Achillea (Yarrow) Coronation Gold

Low maintenance, upright perennial with golden flower clusters. Blooms 6-8 weeks beginning in July.

- Best in sun
- Height 18-24 in. Spread 12-18 in.
- Drought tolerant
- Prefers good, well-drained soil
- Good cut or dried flower
- Resistant to deer, rabbits*
- Attracts butterflies and other pollinators
- May rebloom if cut back after flowering

Achillea Millefolium (Common Yarrow) Summer Pastels

Low maintenance, upright perennial with flower clusters in assorted colors. Blooms 2-3 months beginning in July.

- Best in sun
- Height 15-18 in. Spread 12-18 in.
- Drought and salt tolerant
- Prefers good, well-drained soil
- Good cut or dried flower
- Resistant to deer, rabbits*
- Attracts butterflies and other pollinators

Photo unavailable

Achillea (Yarrow) Red Velvet

Low maintenance, upright perennial with rosy-red flower clusters and attractive lightly scented, silver-grey foliage. Blooms 12-16 weeks beginning in June.

- Best in sun
- Height 18-20 in. Spread 12-16 in.
- Drought tolerant
- Prefers well-drained soil
- Good cut or dried flower
- Resistant to deer, rabbits*
- Attracts butterflies and other pollinators

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Alcea Rosea (Hollyhock) Nigra

Photo unavailable

Heirloom

Upright biennial with dark maroon, almost black, flowers. Blooms summer to fall.

- Best in sun
- Height 6-8 ft. Spacing 24 in.
- Prefers rich, well-drained soil.
- Good cut flower.
- Resistant to deer, rabbits*
- Attracts butterflies and pollinators
- Heirloom

Alchemilla Mollis (Lady's Mantle) Thriller

Heirloom

Spreading perennial herb with star shaped greenish-yellow flower clusters and attractive, scalloped foliage. Blooms 2-3 months beginning in June.

- Sun to part shade
- Height 10-15 in. Spacing 10-12 in.
- Prefers rich well-drained soil
- Good cut flower, great filler in arrangements
- Resistant to deer, rabbits*
- Attracts butterflies

Allium Cernuum (Wild Onion)

WI Native

Upright annual with white flower clusters. Great for rock gardens. Blooms beginning in mid-summer.

- Best in sun
- Height 12-18 in. Spread 12-18 in.
- Prefers well-drained soil
- Attracts pollinators
- Toxic to dogs and cats

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Allium (Ornamental Onion) Millennium

Upright perennial with 2" globe shaped, purple flower clusters. Blooms 3-4 weeks beginning in mid-summer.

- Best in sun
- Height 12-18 in. Spread 12-18 in.
- Prefers well-drained soil
- Tolerates drought
- Resistant to deer, resistant*
- Attracts butterflies

Aquilegia (Columbine) Origami Mix

Upright perennial with large flowers in a mix of colors.

- Height 18-24 in. Spread 20-24 in.
- Blooms 6-8 weeks beginning in June
- Prefers good, well-drained soil
- Heat tolerant
- Good cut flower
- Attracts butterflies and hummingbirds

Aquilegia Canadensis (Wild Columbine)

Upright perennial with nodding, scarlet and yellow flowers. Great in cottage gardens and naturalized areas. Will self-seed. Blooms beginning in late spring.

- Sun to part shade
- Height 24-36 in. Spread 12-18 in.
- Prefers rich, moist, well-drained soil
- Tolerates dry soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

WI Native

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Artemesia Schmidtiana (Wormwood) Silver Mound

Mounding perennial with feathery silver-green foliage. Can be used in wreaths and flower arrangements.

- Sun to part shade
- Height 10-12 in. Spread 15-18 in.
- Tolerates drought, road salt
- Prefers good, well-drained soil
- Good filler in cut flower arrangements
- Resistant to deer* and rabbits

Aruncus (Goat's Beard)

Upright clumping perennial with plumes of creamy white flower clusters above fern-like, dark green foliage. Blooms early to mid-summer.

- Sun to part shade
- Height 4-6 ft. Spread 2-4 ft.
- Prefers rich, moist, well-drained soil
- Tolerates wet soil
- Resistant to deer and rabbits*
- Attracts birds and butterflies

Heirloom

Asarum Canadense (Wild Ginger)

Spreading perennial groundcover with heart shaped leaves and purplish-brown flowers. Blooms in spring.

- Part shade to shade
- Height 6-12 in. Spread 12-18 in.
- Prefers moist, well-drained soil
- Tolerates wet soil
- Resistant to deer*
- Attracts butterflies

WI Native

WI Native

Asclepias Perennis (Swamp Milkweed)

Upright perennial with fragrant white flowers. Great in small spaces or rock gardens. 6-8 weeks beginning in July.

- Best in sun
- Height 24-36 in. Spread 21-24 in.
- Prefers well-drained soil
- Tolerates clay soil, wet soil
- Resistant to deer*
- Attracts hummingbirds and butterflies

Heirloom

Aster Novi-belgii (Wood 's Blue Aster)

Upright perennial with blue flowers. Blooms 6-8 weeks beginning in September.

- Best in sun
- Height 12-15 in. Spread 12-15 in.
- Prefers rich, well-drained soil
- Tolerates drought, road salt, wet soil
- Good cut flower
- Resistant to deer* and rabbits
- Attracts birds and butterflies

Aster Novi-belgii (Wood's Pink Aster)

Upright perennial with pink flowers. Blooms 6-8 weeks beginning in September.

- Best in sun
- Height 12-15 in. Spread 12-15 in.
- Prefers rich, well-drained soil
- Tolerates drought, road salt, wet soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts birds, butterflies

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Aster Novi-belgii (Wood's Purple Aster)

Upright perennial with purple flowers. Blooms 6-8 weeks beginning in September.

- Best in sun
- Height 12-15 in. Spread 12-15 in.
- Prefers rich, well-drained soil
- Tolerates drought, road salt, wet soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts birds, butterflies

Aster Novae-angliae Purple (Dome Aster)

Upright perennial with purple flowers. Blooms 2-3 months beginning in August.

- Best in sun
- Height 12-15 in. Spread 12-15 in.
- Prefers rich, well-drained soil
- Tolerates drought, road salt, wet soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts birds, butterflies

Astilbe Chinensis Vision in Red

Upright perennial with plumes of rose-red flowers. Blooms beginning in mid-summer.

- Part shade 12-15 in. Spread 12-15 in.
- Prefers rich, moist soil
- Tolerates clay soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Astilbe Chinensis Little Vision in Pink

Upright perennial with plumes of pink flowers. Blooms summer to late summer.

- Part shade to shade
- Height 14-16 in. Spread 14-16 in.
- Prefers rich, moist soil
- Tolerates clay soil, wet soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Baptisia Australis (False Indigo)

Upright perennial with blue flower spikes and attractive blue-green foliage and seed pods. Blooms 6-8 weeks beginning in June.

- Best in sun
- Height 3-4 ft. Spread 3-4 ft.
- Prefers rich, moist soil
- Tolerates drought, clay soil
- Good cut flower
- Attracts butterflies

WI Native

Bergenia Cordifolia (Heartleaf Bergenia)

Upright perennial with rose-pink flowers. Blooms 6-8 weeks beginning in May.

- Sun to part shade
- Height 12-15 in. Spread 12-15 in.
- Prefers rich, moist soil
- Tolerates clay soil, sandy soil, dry soil
- Resistant to deer, rabbits*
- Attracts butterflies

Heirloom

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Brunnera Macrophylla Jack Frost

Clumping perennial with large variegated, heart shaped leaves in silver and green and clouds of blue flowers. Blooms spring to summer.

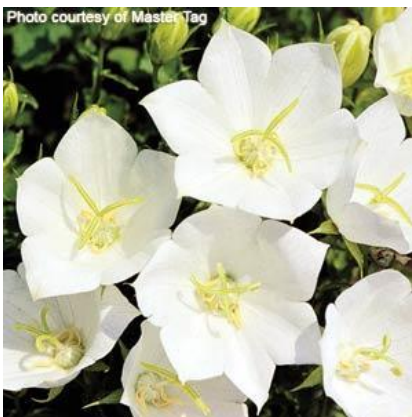

- Part sun to shade
- Height 12-18 in. Spread 12-18 in.
- Prefers moist, but well drained soil
- Tolerates clay soil, sandy soil, dry soil
- Resistant to deer, rabbits*

Campanula Carpatica (Blue Clips)

Spreading perennial with blue up-facing blue flowers. Good in rock gardens and borders or as a groundcover for a small area. Blooms 6-8 weeks beginning in June.

- Sun to part shade
- Height 4-6 in. Spread 10-12 in.
- Prefers moist, well-drained soil.
- Can be used as cut flower
- Resistant to rabbits*
- Attracts Hummingbirds

Campanula Carpatica (White Clips)

Spreading perennial with white up-facing blue flowers. Good in rock gardens and borders or as a groundcover for a small area. Blooms 6-8 weeks beginning in June.

- Sun to part shade
- Height 4-6 in. Spread 10-12 in.
- Prefers moist, well-drained soil.
- Can be used as cut flower
- Resistant to rabbits*
- Attracts Hummingbirds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Heirloom

Campanula Medium (Canterbury Bells)

Upright biennial with bell shaped flowers in white, pink, and blue. Blooms beginning in June.

- Sun to part shade
- Height 18-36 in. Spread 12 in.
- Prefers moist, well-drained soil
- Tolerates clay soil, sandy soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Clematis, Assorted Varieties

Note: These have not yet arrived. We will update this list when we know which varieties we will have and post their arrival on Facebook.

Some varieties may be heirloom

Vining perennial that comes in a wide range of colors. Wonderful climbing a trellis or trailing over a wall. Pruning needs vary by type. Bloom times vary.

- Sun to part sun
- Height anywhere from 3-15 ft. depending on variety
- Prefers moist, well-drained soil
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

Cleome Hassleriana (Spider Flower)

Heirloom

Upright annual often treated as a perennial as it self-seeds readily. It has dramatic rose-pink flower clusters on scented foliage. Blooms late summer to fall.

- Best in sun
- Height 3-5 ft. Spread 1-2 ft.
- Prefers well-drained soil
- Tolerates drought, sandy soil
- Good cut flower
- Resistant to rabbits*
- Attracts birds, hummingbirds, butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Coreopsis Grandiflora (Tickseed) Early Sunrise

Upright perennial with deep yellow flowers. Blooms beginning all summer beginning in June.

- Best in sun
- Height 10-24 in. Spread 10-24 in.
- Prefers moist soil, but well-drained soil
- Tolerates drought, rocky soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies
- Remove spent flowers to promote new bloom

Coreopsis Verticillata (Threadleaf Coreopsis) Moonbeam

Upright perennial with creamy yellow flowers. Blooms 3-4 months beginning in June.

- Sun to part shade
- Height 18-24 in. Spread 15-18 in.
- Prefers well-drained soil
- Tolerates drought, rocky soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts bees, butterflies
- Remove spent flowers

Coreopsis Verticillata (Threadleaf Coreopsis) Zagreb

Upright perennial with bright yellow flowers. Blooms 3-4 months beginning in early summer.

- Sun to part shade
- Height 15-18 in. Spread 12-15 in.
- Prefers well-drained soil
- Tolerates drought, rocky soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies
- Remove spent flowers

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Delphinium (Larkspur) Magic Fountain Mix

Upright perennial with spectacular flower spikes in lavender, white and blue. Blooms for 1-2 months beginning in June.

- Best in sun
- Height 18-24 in. Spread 20-24 in.
- Prefers rich, moist, well-drained soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

Dianthus Plumarius (Pinks) Rockin' Rose

Mounding perennial with fragrant rose-colored flowers. Great in rock gardens. Blooms for 3 weeks beginning in June.

- Best in sun
- Height 16-20 in. Spread up to 16 in.
- Prefers good, well-drained soil
- Good cut flower
- Resistant to deer*
- Attracts butterflies

Digitalis Purpurea (Dalmatian Foxglove) Mix

Upright perennial with flower spines in a mix of colors. Blooms for 4-6 weeks beginning in early summer.

- Sun to part shade
- Height 3-5 ft. Spread 1-2 ft.
- Prefers well-drained soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts birds, hummingbirds, butterflies

Heirloom

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Echinacea Hybrida (Coneflower) Cheyenne Spirit

Upright perennial with showy, multicolored daisy-like flowers. Naturalized well. Blooms June to August.

- Height 24-30 in. Spacing 15-18 in.
- Sun to part shade
- Prefers good soil
- Tolerates drought, clay soil, rocky soil
- Excellent cut flower
- Resistant to deer*
- Attracts birds, hummingbirds, butterflies
- Remove spent blooms

Echinacea Purpurea (Coneflower) Magnus

Upright perennial with bright purple flowers. Blooms for 2-3 months beginning in July.

- Best in sun
- Height 2-3 ft. Spread 1-2 ft.
- Prefers good, well-drained soil
- Tolerates drought, clay soil, rocky soil
- Great cut flower
- Resistant to deer*
- Attracts birds, hummingbirds, butterflies
- Remove spent blooms

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Echinacea Purpurea (Coneflower) White Swan

Upright perennial with showy, scented pure white flowers. Blooms 2-3 months beginning in June.

- Sun to part sun
- Height 2-3 ft. Spread 1-2 ft.
- Tolerates drought, heat, clay soil, rocky soil
- Great cut flower
- Resistant to deer*
- Attracts birds, hummingbirds, butterflies
- Remove spent blooms

Echinacea Purpurea (Coneflower) PowWow White

Compact upright perennial with showy, 3–4-inch, snow white flowers on strong stems. Flowers profusely. Blooms summer to fall.

- Best in sun
- Height 16-20 in. Spread 12-18 in.
- Tolerates drought, heat, clay soil, rocky soil
- Great cut flower
- Resistant to deer*
- Attracts birds, hummingbirds, butterflies
- Remove spent blooms

Eryngium Planum (Sea Holly) Blue Sapphire

Rapidly growing, unique perennial with steel blue flowers. Blooms 2-3 months beginning in July.

- Sun to part sun
- Height up to 3 ft. Spread 2-3 ft.
- Prefers good soil
- Tolerates drought, sandy soil
- Resistant to deer, rabbits*
- Attracts butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Fern – *Matteuccia Struthiopteris* (Ostrich Fern)

Upright broadleaf perennial fern with attractive fronds. Native to boggy areas. Spreads somewhat rapidly.

- Prefers part shade
- Height 4-6 ft.
- Prefers moist, acidic soil
- Tolerates clay soil, wet soil
- Resistant to deer, rabbits*

Gaillardia Goblin

Compact, bushy perennial with vivid red and yellow flowers. Prolific bloomer. Low and compact – great for your garden's edges. Blooms June-September.

- Best in sun
- Height 8-14 in. Spread 15-18 in.
- Prefers moist, well-drained soil
- Tolerates drought and salt
- Good, showy cut flower
- Resistant to deer, rabbits*
- Attracts butterflies
- Remove spent flowers

Grass, *Calamagrostis Acutiflora* Karl Foerster (Feather Reed Grass)

Upright broadleaf perennial grass with blooms that open green, turn burgundy red, then fade to gold. Good fall color.

- Sun to part shade
- Height 5-7 ft. Spread 1-2 ft.
- Prefers moist, well-drained soil
- Tolerates drought, wet soil
- Resistant to deer, rabbits*
- Attracts birds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Grass, Calamagrostis Acutiflora Overdam (Feather Reed Grass)

Upright evergreen broadleaf grass with yellow spike flowers. Bold accent plant. Golden fall color. Blooms in June.

- Sun to part shade
- Height 4-5 ft.
- Prefers acidic soil
- Tolerates drought, wet soil
- Resistant to deer, rabbits*
- Attracts birds

Grass, Elymus Glaucus (Wild Rye)

Fast growing, spreading perennial grass. Very tolerant of soil conditions. Does well in containers.

- Best in sun
- Height 2-3 ft.
- Tolerates drought, poor soil
- Attracts butterflies

Grass, Miscanthus Sacchariflorus (Silver Banner)

Photo unavailable

Upright evergreen grass with silver panicles appearing in late summer. Spreads easily. Great for winter interest

- Best in sun
- Height 5-7 ft. Spread 3-5 ft.
- Juglan's (black walnut) toxin
- Resistant to deer*

*Any statement of resistance to wildlife in a generalization, not a guarantee!

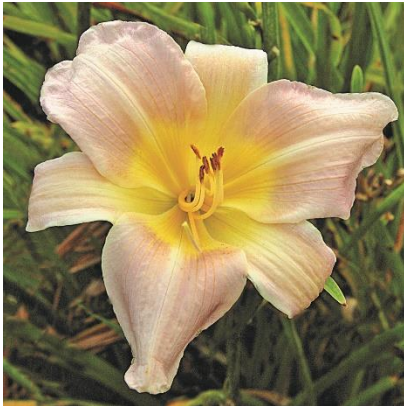

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Grass, Panicum Virgatum Heavy Metal (Switch Grass)

Upright perennial grass with attractive, blue-gray foliage with red highlights and tan flowering sprays in late summer. Red coloring darkens in fall.

- Best in sun
- Height 3-4 ft.
- Prefers well-drained soil
- Tolerates drought, salt
- Resistant to deer
- Attracts birds

Hemerocallis (Daylily) Catherine Woodbury

Upright perennial with pale pink trumpet flowers with a yellow center. Great for beds, borders and planted alongside shrubs in foundation plantings.

Blooms July-August.

- Full to part sun
- Height 24-30 in.
- Prefers moist, well-drained soils
- Tolerates drought
- Resistant to rabbits*
- Attracts hummingbirds, butterflies

Hemerocallis (Daylily) Chicago Apache

Upright perennial with red trumpet flowers with a yellow/green center. Great for beds, borders and planted alongside shrubs in foundation plantings.

Blooms July-August.

- Full to part sun
- Height 18-24 in. Spread 18-24
- Prefers moist, well-drained soils
- Tolerates drought
- Resistant to rabbits*
- Attracts hummingbirds, butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Hemerocallis Everydaylily Pink Wing

Upright perennial with 3-inch pink flowers. Blooms in summer. Rebloomer.

- Sun to part shade
- Height 20-24 in.
- Prefers good, well-drained soil
- Resistant to rabbits*

Attracts hummingbirds, butterflies

Hemerocallis Everydaylily Red Rib

Upright perennial with red and orange flowers. Easily grown. Pest free. Blooms in summer. Rebloomer.

- Sun to part shade
 - Height 28-34 in.
 - Prefers good, well-drained soil
 - Resistant to rabbits*
 - Attracts hummingbirds, butterflies
-

Hemerocallis (Daylily) Joan Senior

Upright perennial with creamy white flowers with a yellow center. Great for beds, borders and planted alongside shrubs in foundation plantings. Blooms July-August.

- Full to part sun
 - Height 20-25 in.
 - Prefers moist, well-drained soils
 - Tolerates drought
 - Resistant to rabbits*
 - Attracts hummingbirds, butterflies
-

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Hemerocallis (Daylily) Little Grapette

Upright perennial with rose-purple flowers with a yellow center. Great for beds, borders and planted alongside shrubs in foundation plantings. Blooms June-July.

- Full to part sun
- Height 10-12 in. Spread 18-24 in.
- Prefers moist, well-drained soils
- Tolerates drought
- Resistant to rabbits*
- Attracts hummingbirds, butterflies

Hemerocallis (Daylily) Stella D' Orro

Upright perennial with fragrant, 2-3-inch yellow flowers with ruffled edges. Easily grown, dependable bloomer. Blooms June-August.

- Best in sun
- Height-20 in. Spread 12-24 in.
- Prefers moist, well-drained soils
- Tolerates drought
- Resistant to rabbits*
- Attracts hummingbirds, butterflies

Heuchera (Coral Bells) Big Top Caramel

Mounding perennial with delicate pink flowers on tall slender stems, but mostly used for its striking foliage. It has caramel-colored leaves with burgundy undersides in a neat mound. Blooms in June.

- Full to part sun
- Height (foliage) 6-8 in. Spread 14-20 in.
- Prefers rich, well-drained soil
- Tolerates salt, heat, humidity, dry shady locations
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Heuchera (Coral Bells) Palace Purple

Mounding perennial with delicate white flowers on tall slender stems, but mostly used for its striking foliage. It has ruffled, bronzy-purple leaves. Blooms 6-8 weeks beginning in May.

- Sun to part shade
- Height 12-18 in. Spread 12-16 in.
- Prefers rich, well-drained soil
- Tolerates salt
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

Hosta Albo Marginata

Spreading perennial with lavender flowers and silver-edged, dark green leaves. Blooms 3-5 weeks beginning in August.

- Part shade to shade
- Height 15-18 in. Spread 18-24 in.
- Prefers rich, moist soil.
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Heirloom

Hosta August Moon

Spreading perennial with large, yellow, rounded leaves. Easy to grow. Blooms in June.

- Part shade to shade
- Height 18-24 in. Spread 18-24in.
- Prefers rich, moist soil
- Tolerates drought, salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Hosta Big Daddy

Spreading perennial with fragrant purple flowers and large, blue leaves with best color when grown in shade. Easy to grow. Blooms in summer.

- Part shade to shade
- Height 24-30 in. Spread 24-36 in.
- Prefers rich, moist soil
- Tolerates heavy shade, salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Hosta Blue Mouse Ears

Mounding perennial with pale lilac flowers and round blue-green leaves that curl at the ends and look like mouse ears. Easy to grow. Blooms 3-4 weeks beginning in mid-July.

- Part shade to shade
- Height 12-15 in.
- Prefers rich, moist soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Hosta Elegans

Irregular perennial with large, showy bright green leaves and blue flowers. Blooms in summer.

- Part shade to shade
- Height 18-24 in. Spread 18-24in.
- Prefers rich, moist soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Hosta First Frost

Spreading perennial with white flowers and blue-green leaves with edges that emerge gold and fade to white as the season progresses. Blooms in summer.

- Part shade to shade
- Height 16-24 in. Spread 18-24in.
- Prefers rich, moist soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Hosta Frances Williams

Spreading perennial with white flowers and strongly veined, heart shaped, blue-green leaves edged in greenish yellow. Easy to grow. Blooms beginning in mid-summer.

- Part shade to shade
- Height 12-24 in. Spread 12-24in.
- Prefers rich, moist soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Hosta Gold Standard

Spreading perennial with pinkish-lavender flowers and yellow leaves with green margins. Easy to grow. Blooms 3-5 weeks beginning in July.

- Part shade to shade
- Height 12-24 in. Spread 12-18in.
- Prefers rich, moist soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Hosta Golden Tiara

Spreading perennial with lilac-blue flowers and green, broad oval, green shaped leaves edged in chartreuse. Blooms 4-8 weeks beginning in August.

- Part shade to shade
- Height 12-15 in. Spread 12-15 in.
- Prefers rich, moist soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Hosta Guacamole

Mounding perennial with white fragrant flowers and green leaves with chartreuse-gold streaks. Blooms 6-8 weeks beginning in August.

- Part shade to shade
- Height 16-18 in. Spread 24-26 in.
- Prefers good soil
- Tolerates salt
- Attracts hummingbirds

Hosta Honeybells

Mounding perennial with fragrant lavender flowers and large, elongated, grass-green leaves. Easy to grow. Blooms 1-2 months beginning in July.

- Part shade to shade
- Height 24-30 in.
- Prefers rich, moist soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Hosta Krossa Regal

Spreading perennial with fragrant lilac flowers and frosty blue leaves. Easy to grow. Blooms 2-3 months beginning in June.

- Part shade to shade
- Height 12-24 in. Spread 12-24in.
- Prefers rich, moist soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Hosta Royal Standard

Spreading perennial with fragrant white flowers and glossy green leaves. Blooms 6-8 weeks beginning in August.

- Part shade to shade
- Height to 18 in. Spread to 24 in.
- Prefers good soil
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

Hosta Stained Glass

Spreading perennial with fragrant lavender flowers and bright golden-yellow leaves edged in green. Blooms in summer.

- Part shade to shade
- Height to 18 in. Spread to 24 in.
- Prefers good soil.
- Tolerates salt
- Resistant to Juglan's (black walnut) toxin, rabbits*
- Attracts hummingbirds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Iris Pallida Variegata (Sweet Zebra Iris)

Upright perennial with fragrant bluish-purple flowers and variegated green and cream foliage. Blooms 3-5 weeks beginning in late May.

- Prefers sun
- Height 18-24 in. Spacing 15-18 in.
- Prefers well-drained soil
- Tolerates drought, salt
- Good cut flower
- Resistant to deer, rabbits*

Iris Siberica (Siberian Iris) Butter and Sugar

Upright perennial with fragrant white and yellow flowers. Blooms 3 weeks beginning in May.

- Sun to part shade
- Height 24-28 in. Spacing 20-24 in.
- Prefers moist, well-drained soil
- Tolerates drought, wet soil, clay soil
- Good cut flower
- Resistant to Juglan's (black walnut) toxin, deer, rabbits*
- Attracts butterflies

Iris Siberica (Siberian Iris) Caesar's Brother

Upright perennial with fragrant violet flowers. May self sow. Blooms 3-6 weeks beginning in May.

- Sun to part shade
- Height to 36 in. Spacing to 24 in.
- Prefers moist, well-drained soil
- Tolerates drought, clay soil, wet soil
- Good cut flower
- Resistant to Juglan's (black walnut) toxin, deer, rabbits*
- Attracts hummingbirds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Iris Versicolor (Blue Flag Iris)

Photo unavailable

WI Native

Upright perennial with lovely blue flowers and sword-shaped, green foliage. Nice near water. Naturalizes easily. Blooms June-July.

- Sun to part sun
- Height 24-30 in. Spacing 24-30 in.
- Good cut flower
- Wet tolerant
- Resistant to Juglan's (black walnut) toxin, disease, deer*
- Attracts hummingbirds

Lamium Maculatum (Spotted Dead Nettle) Beacon Silver

Rapid spreading perennial with pink flowers and heart shaped silver leaves edged in green. Great as a groundcover in shady areas. Blooms 1-2 months beginning in early May.

- Part shade to shade
- Height 4-6 in.
- Prefers well-drained soil
- Tolerates drought
- Resistant to deer, rabbits*

Lavendula Augustifolia (English Lavender) Hidecote Blue

Photo unavailable

Compact mounding perennial herb with fragrant light purple flowers. A cottage herb garden favorite. Great in rock gardens and perennial borders. Blooms in summer.

- Best in sun
- Height 18-24 in. Spread 24-36 in.
- Prefers good, well-drained soil.
- Tolerates drought, clay soil, sandy soil, rocky soil
- Good cut or dried flower
- Resistant to deer, rabbits*
- Attracts butterflies, pollinators

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Lavendula Augustifolia Munstead (Lavender)

Compact mounding perennial herb with fragrant light purple flowers. A cottage herb garden favorite. Great in rock gardens and perennial borders. Blooms in early summer, may bloom again if cut back after first bloom.

- Best in sun
- Height to 12 in. Spread to 12 in.
- Prefers good, well-drained soil.
- Tolerates drought, clay soil, sandy soil, rocky soil
- Good cut or dried flower
- Resistant to deer, rabbits*
- Attracts butterflies, pollinators

Leucanthemum Superbum (Shasta Daisy) Alaska

Heirloom

Upright perennial with white petaled, 3 to 4-inch flowers that have a yellow center. Very dependable plant. Blooms for 6-8 weeks beginning in July.

- Sun to part shade
- Height 18-30 in. Spread 18-24 in.
- Prefers well-drained soil
- Tolerates drought, dry soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Liatris Scariosa (Gayfeather, Blazing Star)

Floristan White

Upright perennial with fragrant white flower spikes which open from the top down. Great in beds and low borders. Avoid wet areas. Blooms for 4-8 weeks beginning in August.

- Sun to part shade
- Height 18-24 in.
- Prefers well-drained soil
- Tolerates drought, heat, sandy soil
- Good cut or dried flower
- Resistant to deer*
- Attracts birds, hummingbirds, butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Liatris Spicata Kabold (Gayfeather, Blazing Star)

Upright perennial with rosy-lavender flower spikes with open from the top down. Great in beds and low borders. Avoid wet areas. Blooms for 3-4 months beginning in June.

- Sun to part shade
- Height 18-24 in.
- Prefers well-drained soil
- Tolerates drought, sandy soil
- Good cut or dried flower
- Resistant to deer*
- Attracts birds, hummingbirds, butterflies

Heirloom

Lilium Fantasiatic (Lily) Hot Spot Pink

Rapidly growing upright perennial with fragrant pink and burgundy flowers. Very hardy. Easy to grow. Blooms beginning in June.

- Sun to part shade
- Height 30-60 in. Spacing 12-18 in.
- Prefers good, well-drained soil
- Tolerates sandy soil, acidic soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Lilium Fantasiatic (Lily) Hot Spot White

Rapidly growing upright perennial with fragrant white and burgundy flowers. Very hardy. Easy to grow. Blooms beginning in June.

- Sun to part shade
- Height 30-36 in. Spacing 12-18 in.
- Prefers good, well-drained soil
- Tolerates sandy soil, acidic soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Lilium Fantasiatic (Lily) Orange

Rapidly growing upright perennial with fragrant orange flowers. Very hardy. Easy to grow. Blooms beginning in June.

- Sun to part shade
- Height 30-60 in. Spacing 12-18 in.
- Prefers good, well-drained soil
- Tolerates sandy soil, acidic soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Lilium Fantasiatic (Lily) Pink

Rapidly growing upright perennial with fragrant pink flowers. Very hardy. Easy to grow. Blooms beginning in June.

- Sun to part shade
- Height 30-60 in. Spacing 12-18 in.
- Prefers good, well-drained soil
- Tolerates sandy soil, acidic soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Lilium Fantasiatic (Lily) Red

Rapidly growing upright perennial with fragrant red flowers. Very hardy. Easy to grow. Blooms beginning in June.

- Sun to part shade
- Height 30-60 in. Spacing 12-18 in.
- Prefers good, well-drained soil
- Tolerates sandy soil, acidic soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Lilium Fantasiatic (Lily) Yellow

Rapidly growing upright perennial with fragrant yellow flowers. Very hardy. Easy to grow. Blooms beginning in June.

- Sun to part shade
- Height 30-60 in. Spacing 12-18 in.
- Prefers good, well-drained soil
- Tolerates sandy soil, acidic soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Lilium Orientalis (Lily) Stargazer

Rapidly growing upright perennial with spectacular rose-red and white flowers with yellow stamens. Very hardy, vigorous and disease free. Blooms 1-2 months beginning in July.

- Sun to part shade
- Height 30-60 in. Spacing 12-18 in.
- Prefers good, well-drained soil
- Tolerates sandy soil, acidic soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

Lobelia Speciosa (Cardinal Flower) Fan Scarlet

Upright perennial with deep red flowers. Easy to grow. Blooms beginning in June.

- Best in sun
- Height 2-3 ft. Spacing 10-12 in.
- Prefers moist, well-drained soil
- Tolerates wet soil
- Resistant to deer, rabbits*
- Attracts birds, hummingbirds, butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Lobelia Speciosa (Cardinal Flower) Starship Rose Deep

Upright perennial with hot pink flowers. Blooms summer to late summer.

- Best in sun
- Height 20-24 in. Spacing 8-12 in.
- Prefers moist, well-drained soil
- Tolerates wet soil
- Resistant to deer, rabbits*
- Attracts birds, hummingbirds, butterflies

Lupinus (Lupine) Russell Mix

Upright perennial fragrant flower spikes in a mix of colors. Spectacular in bloom! Best on cool weather conditions. Blooms beginning in June.

- Sun to part shade
- Height 2-3 ft. Spacing 18-24 in.
- Prefers good, well-drained soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

Monarda (Bee Balm) Bee You Bee Free

Rapidly growing upright perennial with purplish-pink flowers. Easy to grow. Naturalizes well. Blooms 2-3 months beginning in June.

- Best in sun
- Height 2-3 ft. Spacing 10-12 in.
- Prefers moist, well-drained soil
- Tolerates drought, clay soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Nepeta (Catmint) Walker Junior

Compact spreading perennial with lavender-blue flowers. Easy to grow. Blooms 3-4 months beginning in May.

- Best in sun
- Height 12-18 in. Spacing 12-24 in.
- Prefers good soil
- Tolerates drought, rocky soil
- Resistant to rabbits*
- Attracts hummingbirds, butterflies

Oenothera Stubbei (Pink Evening Primrose)

Photo unavailable

Heirloom

Spreading perennial with pink flowers. Easy to grow. Blooms beginning in summer.

- Best in sun
- Height 6-8 in. Spacing 12-24 in.
- Prefers good soil
- Tolerates drought
- Attracts birds, hummingbirds

Oenothera Stubbei (Yellow Evening Primrose)

Photo unavailable

Spreading perennial with yellow flowers. Easy to grow. Blooms beginning in summer.

- Best in sun
- Height 6-8 in. Spacing 12-24 in.
- Prefers good soil
- Tolerates drought
- Attracts birds, hummingbirds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Paeonia Lactiflora (Peony) Paula Fay

Upright perennial with fragrant, semi-double, bright pink flowers and golden stamens. Blooms late spring to early summer.

- Sun to part sun
- Height 30-36 in. Spread 24-36 in.
- Prefers neutral, well-drained soil
- Great cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Paeonia Lactiflora (Peony) Shirley Temple

Upright perennial with fragrant, blush-pink 8" flowers that fade to ivory as they age. Blooms beginning in late spring.

- Sun to part shade
- Height 30-36 in. Spread 30-36 in.
- Prefers moist, well-drained soil
- Great cut flower
- Resistant to deer, rabbits*
- Attracts butterflies

Papaver Orientale Raspberry Queen

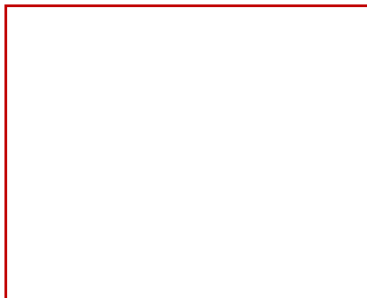

Photo unavailable

Tall, upright perennial 4-5", bright pink flowers with a dark center and silvery-green leaves. Blooms late spring to early summer. Attractive seed pods provide great winter interest.

- Best in sun
- Height 30-36 in. Spread 18-24 in.
- Prefers well-drained soil
- Great cut flower
- Resistant to deer, rabbits*
- Attracts butterflies, hummingbirds

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Penstemon Hartwegii (Beardtongue) Tubular Bells Wine Red

Photo unavailable

Upright perennial with red bell-shaped flowers with white throats. Blooms 3-4 months beginning in summer.

- Sun to part shade
- Height 12-18 in. Spread 12-15 in.
- Prefers well-drained soil
- Good cut flower
- Tolerates drought, sandy soil, dry soil, salt
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

Perovskia Atriplicifolia (Russian Sage)

Upright perennial with blueish spikes and silvery aromatic foliage. Blooms beginning in late summer.

- Best in sun
- Height 36-48 in. Spread 18-24 in.
- Prefers well-drained soil
- Tolerates drought, sandy soil, dry soil, salt
- Resistant to deer, rabbits*
- Attracts birds, hummingbirds, butterflies

Phlox Paniculata (Garden Phlox) Bright Eyes

Upright perennial with fragrant clusters of pink flowers with red centers. Blooms 6-8 weeks beginning in July.

- Sun to part shade
- Height 18-24 in. Spread 15-18 in.
- Prefers rich, moist soil, well-drained soil
- Good cut flower
- Tolerates clay soil
- Like other phlox, may be prone to powdery mildew
- Resistant to deer*
- Attracts birds, hummingbirds, butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Phlox Sublata (Creeping Phlox) Emerald Blue

Spreading perennial with lavender-blue flowers. Great groundcover. Blooms 4-6 weeks beginning in spring.

- Best in sun
- Height 3-6 in. Spread 12-15 in.
- Prefers well-drained soil
- Tolerates drought, dry soil, salt
- Shear after blooming for compact growth habit
- Resistant to deer*
- Attracts butterflies

Phlox Sublata (Creeping Phlox) Snowflake

Spreading perennial with white flowers. Great groundcover. Blooms 4-6 weeks beginning in spring.

- Best in sun
- Height 3-6 in. Spread 12-15 in.
- Prefers well-drained soil
- Tolerates drought, dry soil, salt
- Shear after blooming for compact growth habit
- Resistant to deer*
- Attracts butterflies

Physostegia Virginiana (Obedient Plant)

Rapidly growing upright perennial with pink and white snapdragon-like flowers on sturdy stems that need no staking. Blooms beginning in July.

- Sun to part shade
- Height 24-48 in. Spread 12-24 in.
- Prefers rich, moist soil
- Resistant to deer*
- Attracts butterflies

WI Native

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Platycodon Astra Pink

Balloon-like buds open into long-lasting, soft pink, bell-shaped 3" flowers. Sturdy, compact and well-branched plants are uniform and heat tolerant. Blooms in summer.

- Best in sun
- Height 8-10 in. Spread 6-10 in.
- Prefers moist, well-drained soil
- Resistant to deer*
- Tolerates clay soil

Platycodon Pop Star Blue

Balloon-like buds open into long-lasting, bell-shaped 3-inch blue flowers. Sturdy, compact and well-branched plants are uniform and heat tolerant. Blooms in summer.

- Best in sun
- Height 6-8 in. Spread 10-12 in.
- Prefers moist, well-drained soil
- Resistant to deer*
- Tolerates clay soil

Polemonium Caeruleum (Jacob's Ladder)

Upright perennial with cup-shaped blue flowers standing above fern-like foliage. Blooms in spring.

- Sun to part shade
- Height 18-24 in. Spread 18-24 in.
- Prefers moist, well-drained soil
- Resistant to deer*

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Pulmonaria Saccharata (Lungwort) Mrs. Moon

Upright perennial with pink to blue flowers and silvery mottled foliage. Blooms in mid-spring.

- Best in part shade
- Height 6-8-12 in. Spread 8-12 in.
- Prefers rich, moist soil
- Resistant to deer, rabbits*
- Attracts hummingbirds

Rudbeckia Fulgida (Black Eyed Susan) Goldsturm

Upright perennial with golden yellow flowers. Great in a cottage garden, meadow or prairie setting. Blooms beginning in mid-summer.

- Best in sun
- Height 18-24 in. Spacing 12-15 in.
- Prefers good, well-drained soil
- Tolerates drought, clay soil, rocky soil
- Good cut flower
- Resistant to deer, rabbits*
- Attracts birds, butterflies

Rue Graveolens (Common Rue)

Mounding perennial with small, yellow flowers. Nice for a sunny border. Blooms beginning in mid-summer.

- Best in sun
- Height 24-36 in.
- Prefers good, well-drained soil
- Tolerates drought, rocky soil
- Resistant to deer*
- Attracts butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

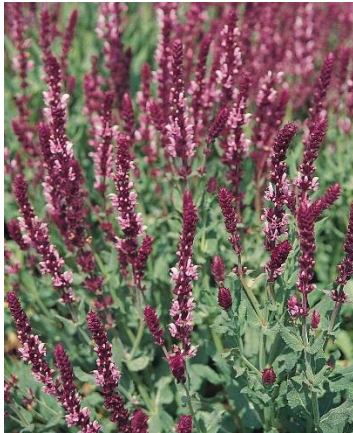

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Salvia Sylvestris (Meadow Sage) Blue Queen

Upright perennial with blueish-purple flowers. Great accent plant to give structure to a sunny border. Blooms beginning in June.

- Best in sun
- Height 8-18 in.
- Prefers good, well-drained soil
- Tolerates drought once established
- Good cut flower
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies
- Remove spent flowers to encourage repeat bloom

Salvia (Meadow Sage) Rose Queen

Upright perennial with blueish-purple flowers. Great accent plant to give structure to a sunny border. Blooms beginning in June.

- Best in sun
- Height 8-18 in.
- Prefers good, well-drained soil
- Tolerates drought once established
- Good cut flower
- Resistant to deer, rabbits*
- Attracts hummingbirds, butterflies

Sanguinaria Canadens (Bloodroot)

Spreading perennial wildflower with white blooms. Woodland shade plant. All parts of plant have red sap, hence the name Bloodroot. Great in woodland gardens or under shrubs. Blooms 6-8 weeks beginning in early summer.

- Needs shade
- Height 8-12 in. Spread 8-12 in.
- Prefers rich, moist, well-drained soil
- Tolerates drought, clay soil
- Resistant to rabbits*

Heirloom

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Scabiosa Japonica (Pincushion Flower) Blue Diamonds

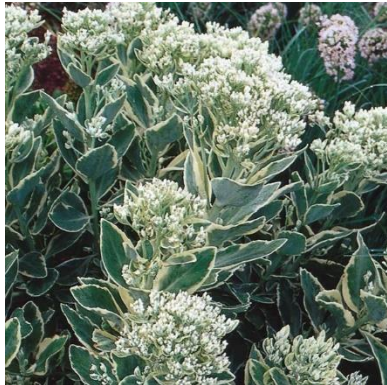

Photo unavailable

Upright perennial with lavender flowers. Easy to grow. Blooms 2-3 months beginning in June.

- Best in sun
- Height 18-24 in. Spread 12-15 in.
- Prefers good, well-drained soil
- Tolerates drought
- Good cut flower
- Resistant to deer*
- Attracts butterflies

Sedum Erythrostictum (Stonecrop) Variegated Frosty Morn

Upright deciduous succulent perennial with fragrant pink flowers and variegated foliage. Great in rock gardens. Easily grown. Blooms 2-3 months beginning in August.

- Best in sun
- Height to 24 in. Spread to 18 in.
- Prefers good, well-drained soil
- Tolerates drought, dry soil, rocky soil
- Resistant to deer, rabbits*
- Attracts butterflies

Sedum Spurium John Creech

Photo unavailable

Compact, spreading perennial with pink flowers and green leaves that turn burgundy in fall. Great in rock gardens. Easily grown. Blooms late summer to early fall.

- Best in sun
- Height to 2 in. Spread 6-12 in.
- Prefers well-drained soil
- Tolerates drought, dry soil, rocky soil
- Resistant to deer, rabbits*
- Attracts butterflies

*Any statement of resistance to wildlife in a generalization, not a guarantee!

Our perennials can all be grown in Zone 5a, where we are located. Priced as marked. Prices and availability are subject to change. Not all items are available at all locations. Some may not be available until mid to late May.

Sedum Spurium (Stonecrop) Tricolor

Compact, spreading perennial with pink flowers and variegated foliage in shades of green, pink, and cream. Great in rock gardens. Easily grown. Blooms 6-8 weeks beginning in July.

- Best in sun
- Height to 4 in. Spread to 12 in.
- Prefers good, well-drained soil
- Tolerates drought, dry soil, rocky soil
- Resistant to deer, rabbits*
- Attracts butterflies

Sedum Spurium (Stonecrop) Voodoo

Compact, spreading perennial with burgundy flowers on green and red foliage which turns bronze in winter. Great in rock gardens. Easily grown. Blooms 2-3 months beginning in June.

- Best in sun
- Height to 4 in. Spread to 12 in.
- Prefers good, well-drained soil
- Tolerates drought, dry soil, rocky soil
- Resistant to deer, rabbits*
- Attracts butterflies

Sedum Telephium Autumn Joy

Upright perennial with rose-pink flowers. Great interplanted with shrubs. Easily grown. Blooms beginning in late summer.

- Best in sun
- Height 12-18 in. Spread 15-18 in.
- Prefers well-drained soil
- Tolerates drought, dry soil, rocky soil
- Resistant to deer, rabbits*
- Attracts butterflies
